Join us for a presentation from International Study Abroad Provider CIEE as their Risk Management/Health, Safety Security Department presents to us about their ongoing Study Abroad programs. Since August, despite Covid-19, CIEE has successfully hosted over 2400 students in 15 countries around the world. We will learn from their experiences about how they assess risk, what they are tracking to help guide them in making determinations to run or not run a program and what are their “lessons learned” to date about studying and travel during a pandemic.

Molly Beste
Assistant Director
Institutional Relations

Bill Bull
Vice President of Risk Management
Health, Safety, & Security
